DANFORTH TO BE HEARD

Discharged Garbage Official Permitted to Explain.

HIS EMPLOYER APPEALS

Cider Cannot Be Retailed in the Market—Health Officer Reports on James Creek Canal—He Suggests That the Health of the Community Demands That Sewer Be Arched.

A hearing will be given by the Commissioners today to Collector Warfield and Inspector H. E. Danforth in reference to the latter's dismissal from his position for alleged falsification of a report made of his investigation of a complaint against the garbage service.

Contractor Warfield, in whose employ Danforth has been for several months, was at the District Building yesterday, and was asked if he knew anything of the particulars of the affair that caused the order of dismissal.

He replied that he was advised only of the complaint alleged to have been preferred by the hotel proprietor and of Danforth's subsequent report of his investigation. He did not know of the order for the inspector's dismissal until he read the report in the evening papers of Tuesday.

His mission to the office of the Commissioners was to make some inquiry about the charges. It is learned that the complaint investigated by Danforth was made by the manager of the Concord Hotel, at the corner of Oregon and New Hampshire avenues northwest. The report as received was that Danforth had been guilty of falsification of a report, and was of such a character that Health Officer Woodward furnished Mr. Warfield a copy of it and notified him to appear and show cause why a fine should not be imposed.

MR. DANFORTH'S ACTION. The result was an investigation by Mr. Danforth, who filed a letter, it is alleged, practically withdrawing the charges. The subsequent inquiry, noted in The Times, developed what the health officer considered to be a false representation upon the part of Danforth, and his dismissal followed.

Danforth is understood to have a very different version of the affair, and will ask for a reversal of the order. He claims to have done nothing to merit the penalty, and in addition to that he insists that he should have had a chance to defend himself before being summarily dismissed.

The Commissioners yesterday decided that under the law they have no authority to issue a permit for the sale of cider in the markets in quantities of less than half a barrel.

The question arose upon the application of Mr. J. C. Boggs, of Brookland, for the privilege of selling the goods of a cider company at the Eastern Market. The market master declined to permit it, and Mr. Boggs appealed to the Commissioners. The matter was then referred to the executive board with the result stated.

DAVID M. LEA obtained a permit yesterday to construct five three-story brick and stone dwellings at Nos. 1641 to 1645 R street and Nos. 1707 to 1709 Seventeenth street northwest, to cost \$46,500.

Other permits issued were as follows: To G. H. H. for two dwellings at Nos. 124 and 156 E street northwest, \$8,000; W. H. Garford, stable and warehouse, rear of No. 1605 Benning road, \$750.

CANAL AND FISH WHARF. Health Officer Woodward has made a report to the Commissioners covering his observations of the condition of the fish wharf and the James' Creek Canal. Dr. Woodward makes no direct recommendation, but suggests that for sanitary reasons the canal and wharf should be the subject of official attention.

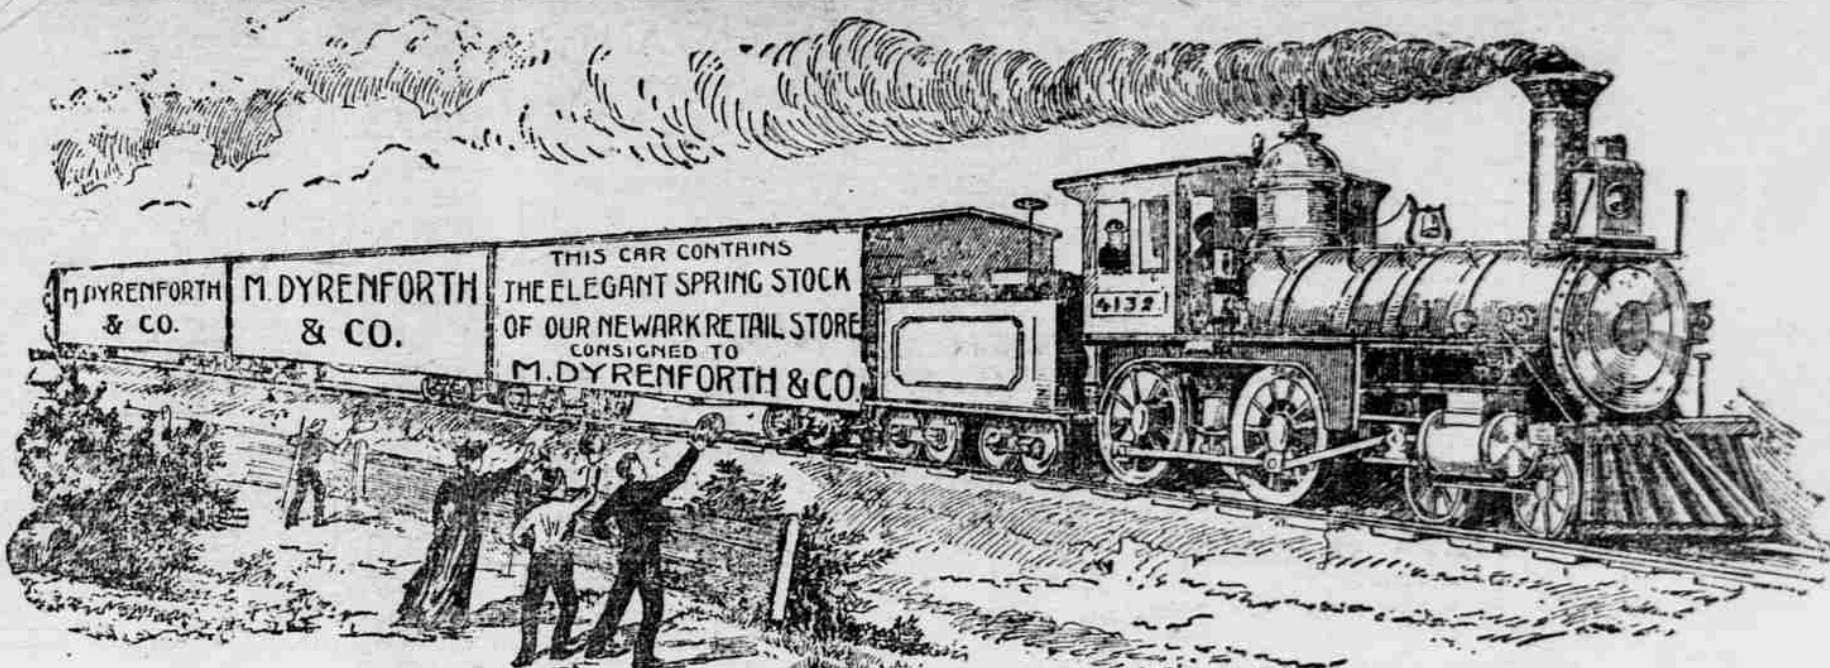

Barber Master Sutton reported yesterday that his force collected twelve tubs of decaying fish at different points along the wharf up to and including the noon hour. An application for permission to subdivide a lot in Columbia Heights subdivision, made by Attorney Leo Simmons, has been rejected by the Commissioners, the decision being based upon an opinion rendered by Attorney S. T. Thomas, to the effect that the proposed subdivision would interfere with the street extension plans.

Mr. Simmons demanded a rehearing, which was granted, and the matter will be argued today at 11 o'clock.

For Boring Sea Expenses. Senator Sherman has favorably reported from the Committee on Foreign Relations, an amendment to an appropriation bill for an item of \$75,000, for the expenses to be incurred under the treaty between the United States and Great Britain for the enforcement and procurement of testimony as contemplated in the 11th article of the treaty signed at Washington, February 8, 1856, relating to Bering Sea seizures.

The Lone Star Beneficial Association will give their eighteenth annual excursion to River View on Sunday next. The steamer will leave her wharf, foot of Seventh street, at 11 a. m., 2:45 and 6 p. m. The Lone Star excursion in the past have always been most enjoyable, and this year it will be no exception to the rule. There will be music on the steamer and grounds all day, and all who go on the excursion are promised a most enjoyable time. The members of the association have the tickets, which are 25 cents, on sale, and they can be purchased at the wharf on Sunday next.
